South Australia Division

Engineers Australia's College of Biomedical Engineers (SA Branch),
The Society for Medical and Biological Engineering, &
The Australasian College of Physical Sciences and Engineers in Medicine

Jointly present

Syringe Pump Technology

Note: Engineers Australia are moving to King William St

Speaker/Host: Andrew Tonkin, Terumo

Talk details:

Andrew Tonkin has been a technician for 36 years, first coming into contact with Terumo 10 years ago while working for another company. He was supporting the Sarns cardiovascular equipment for 3M. Terumo bought the Sarns company from 3M and Andrew offered to continue to support the products for them. Two years later he joined Terumo and set up their Engineering department with training in Japan, Belgium and the US to enable support of their range of medical electronic devices.

Andrew will cover the range of Terumo syringe drivers, in particular discussing the technical differences and advancements in the TE range of pumps.
