Featuring

Hot Rock Geothermal Energy: Towards a Clean, Green South Australian Energy Source

Guest speaker: Prof Richard Hillis

Richard Hillis is Mawson Professor of Geology and Geophysics and State of SA Professor of Petroleum Geology at the University of Adelaide. He graduated BSc (Hons) from Imperial College, University of London and PhD from the University of Edinburgh. He is a geologist whose interests are in tectonics, petroleum geology and geothermal energy. Richard is a non-executive director of JRS Petroleum Research Pty. Ltd. and of the ASX-listed geothermal exploration company Petratherm Ltd.

Richard is a sports tragic who has his tickets booked for the Scotland matches in Rugby World Cup 2007, his leave booked for the Ashes Test in Adelaide and will be at the MCG on the 30th September if the Adelaide Football Club are there too.
