Hosted by the IET on behalf of
Electrical Joint Technical Program
2007

Repatriation General Hospital

Repatriation General Hospital
Daws Rd, Daw Park

Wednesday 14th Nov 2007

5:15pm for a 5.30pm start:
Numbers are limited so register quick!

Overview

Visit the newly acquired, purpose built and state-of-the-art Movement Analysis Centre in SA. The service allows the measurement, analysis, documentation and understanding of human gait disorders providing technical expertise to medical, research and allied health professionals. This visit is number limited so please be quick to register

Tam Nguyen

Tam graduated with a double degree in science and biomedical engineering from Flinders University. He joined the Hugh Williamson Gait Laboratory at the Royal Children's Hospital in Melbourne as a bioengineer. He recently returned to Adelaide to set up and manage the Movement Analysis Centre, South Australia at The Repat and is currently writing up his PhD research thesis.

ALL VISITORS ARE WELCOME
