

Engineers Australia's College of Biomedical Engineers (SA Branch),
The Society for Medical and Biological Engineering, &
The Australasian College of Physical Sciences and Engineers in Medicine

Jointly present

When does clinical equipment become an IT system and who manages it?

Speaker direct from **abec 2007**
Elliot Sloane, Philadelphia, USA

Elliot's main area of interest is in the interface of clinical equipment and IT systems:

- When does an IT system become clinical equipment and who manages it?
- How can you plan and sustain safe ICT-based clinical care environments?
- What are the challenges with wireless medical device networks?
- How do biomedics get trained in these new technical skills?

Elliot is a prominent Clinical Engineer who has worked in both industry and academia. He is currently Assistant Prof of Decision and Information Technologies at Villanova University, and has previously been Vice President, Operations, Clinical & Information Engineering, of Mediq/PRN Life Support Systems and also VP Operations for ECRI.

Event details:

- Date:** Monday 22nd October 2007
- Venue:** Chapman Hall, Engineering House
11 Bagot Street, North Adelaide
- Time:** 5:30pm refreshments, 6:00pm talk
- Cost:** Members FREE, guests also free
- RSVP:** Please RSVP to Anne-Louise
Smith 08 8204 6083 or email
anne-louise.smith@fmc.sa.gov.au
